Subjects

Acrylic
adhesion, bacteria, polysaccharides, 166
Acrylic resins
constituents, analysis, 84
Adhesion
bacteria, acrylic, polysaccharides, 166
streptococci, composite resins, 225
Adverse effects
impression materials, disinfection, sterilization, 246
Ageing
toothpastes, fluoride, compatibility, 47
Alcoholism
dental erosion, 219
Alginates
disinfection, 137
Alloys
casting, post crowns, 305
finishing, properties, 301
metal-ceramic crowns, corrosion, 33
structure, 90
Alveolar bone resorption
osteoporosis, orthopantomogram radiograph, 94
Amalgam
operative techniques, clinical performance, 111
operative techniques, review, 55
Analysis
acrylic resins, constituents, 84
dentifrices, fluoride, 77
Antimicrobials
cements, bone, endodontics, 241
Anxiety
attitudes, women, dentistry, 68
Applications
inlays, survey, 222
Attitudes
anxiety, women, dentistry, 68

Bacteria
adhesion, acrylic, polysaccharides, 166
Biocompatibility
ceramics, technique, 21
posterior composites, 155
Bonding
composite resins, polyalkenoate (glass-ionomer) cements, 28
dentine, smear layer, 209
dentine, stress analysis, 61
Bonding technique
composite resins, microleakage, 184
Bone
cements, antimicrobials, endodontics, 241
edentulousness, resorption, 162
Bridgework
resin-bonded, review, 255

Caries
diagnosis, impressions, 117
radiology, paedodontics, diagnosis, technique, 272
Casting
post crowns, alloys, 305
Cements
bone, antimicrobials, endodontics, 241
properties, conductance, 199
Ceramics
biocompatibility, technique, 21
Chemokinesis
chlorhexidine, neutrophils, chemotaxis, 287
Chemotaxis
chlorhexidine, neutrophils, chemokinesis, 287
Chlorhexidine
neutrophils, chemotaxis, chemokinesis, 287
Cleaning
residual monomers, dentures, physical properties, 189
Clinical performance
amalgam, operative techniques, 111
Compatibility
toothpastes, fluoride, ageing, 47
Composite resins
adhesion, streptococci, 225
bonding technique, microleakage, 184
bonding, polyalkenoate (glass-ionomer) cements, 28
finishing, SEM, 234
ionizing radiation, effects, 177
properties, 140
technique, properties, 230
Conductance
cements, properties, 199
Constituents
acrylic resins, analysis, 84
Corrosion
alloys, metal-ceramic crowns, 33
Cytotoxicity
dentine bonding agents, 279

Dental careers
women, 132
Dental erosion
alcoholism, 219
Dental practice
trends, survey, 216
Dentifrices
fluoride, analysis, 77
Dentine
bonding, smear layer, 209
bonding, stress analysis, 61
measurement, impedance, 284
Dentine bonding agents
cytotoxicity, 279
Dentistry
attitudes, anxiety, women, 68
Dentures
residual monomers, cleaning, physical properties, 189
Diagnosis
caries, impressions, 117
periodontal disease, radiography, 266

Diagnosis *(cont.)*
radiology, paedodontics, caries, technique, 272
Disinfection
alginates, 137
impression materials, sterilization, adverse effects, 246

Edentulousness
bone, resorption, 162
Effects
composite resins, ionizing radiation, 177
Endodontics
cements, bone, antimicrobials, 241

Finishing
alloys, properties, 301
composite resins, SEM, 234
Fluoride
dentifrices, analysis, 77
toothpastes, compatibility, ageing, 47

Gloves
properties, 72

Impedance
dentine, measurement, 284
Impression materials
disinfection, sterilization, adverse effects, 246
silicones, rheology, 171
Impressions
caries, diagnosis, 117
Inlays
applications, survey, 222
Investments
structure, 195
Ionizing radiation
composite resins, effects, 177

Lining materials
polyalkenoate (glass-ionomer) cements, properties, 295

Measurement
dentine, impedance, 284
Metal-ceramic crowns
alloys, corrosion, 33
Microleakage
composite resins, bonding technique, 184

Neutrophils
chlorhexidine, chemotaxis, chemokinesis, 287

Operative techniques
amalgam, clinical performance, 111
amalgam, review, 55
Orthopantomogram radiograph
osteoporosis, alveolar bone resorption, 94
Osteoporosis
alveolar bone resorption, orthopantomogram radiograph, 94

Paedodontics
radiology, caries, diagnosis, technique, 272
Periodontal disease
diagnosis, radiography, 266
Physical properties
residual monomers, dentures, cleaning, 189
Polyalkenoate (glass-ionomer) cements
bonding, composite resins, 28
lining materials, properties, 295
properties, 145

Polysaccharides
adhesion, bacteria, acrylic, 166
Porcelain systems
properties, 290
Post crowns
casting, alloys, 305
Posterior composites
biocompatibility, 155
Properties
alloys, finishing, 301
cements, conductance, 199
composite resins, 140
composite resins, technique, 230
gloves, 72
polyalkenoate (glass-ionomer) cements, lining materials, 295
polyalkenoate (glass-ionomer) cements, 145
porcelain systems, 290

Radiography
periodontal disease, diagnosis, 266
Radiology
paedodontics, caries, diagnosis, technique, 272
Residual monomers
dentures, cleaning, physical properties, 189
Resin-bonded
bridgework, review, 255
Resorption
edentulousness, bone, 162
Review
amalgam, operative techniques, 55
bridgework, resin-bonded, 255
Rheology
impression materials, silicones, 171

SEM
composite resins, finishing, 234
Silicones
impression materials, rheology, 171
Smear layer
dentine, bonding, 209
Sterilization
impression materials, disinfection, adverse effects, 246
technique, 148
Streptococci
adhesion, composite resins,225
Stress analysis
bonding, dentine, 61
Structure
alloys, 90
investments, 195
Survey
dental practice, trends, 216
inlays, applications, 222

Technique
biocompatibility, ceramics, 21
composite resins, properties, 230
radiology, paedodontics, caries, diagnosis, 272
sterilization, 148
Toothpastes
fluoride, compatibility, ageing, 47
Trends
dental practice, survey, 216

Women
attitudes, anxiety, dentistry, 68
dental careers, 132
